

Canadian Clay Symposium :

2023 Stoked!

Kindergarten to Grade 12 Submission Form:

The Symposium Committee feels the importance of fostering the love of clay with school aged learners. There is a unique opportunity to share work, celebrate innovation and appreciate the contributions of fresh hands in our clay community.

To this end, we are hoping to have both a digital show, in which you send digital photos of pieces made by your students which will cycle through large screens set up in the Shadbolt Atrium, as well as an on site show for those of you who wish to drop off your students work at the drop spots in the coming months and have it on display during the symposium event.

Either option is great, and you may want to consider doing both the digital and display show.

There are a few things to take care of for this to work.

Digital Show	On Site Show
<p>What to include:</p> <ul style="list-style-type: none">• High resolution images (300 dpi or greater for possibility of printing)• Photographs of work in a light-box or non-distracting background• If submitting work of process as opposed to product, ensure it is hands only, no faces for privacy concerns.	<p>This would be the first time the Symposium has hosted a physical show of student work. We are hoping for a couple of submissions per school or place of creation.</p> <p>Instructors would be responsible for choosing a piece to represent their place of making. We have 5 plinths. Possibility of 25 pieces total.</p> <p>This show would be set up for the Symposium event and continue for 2 weeks after the show.</p>
